

Construction Site Surveillance.

An estimated \$1 Billion is stolen from construction sites every year. We are sick of it. As your Security Partner, Site Secure will protect your property, people, and profits. Using "Intelligence through Surveillance," you can manage your project from any device, anywhere in the world, enhancing your profitability and peace of mind.

TRUSTED AS A SECURITY PARTNER BY

DETER | DETECT | DISPATCH

✓ Unmatched Security

Unlike security guards, our towers NEVER show up late, get sick, call out, fall asleep, or make poor judgement calls.

✓ 99.9% Camera Uptime

With state-of-the-art solar panels, lithium batteries, 5G cellular, and even Starlink if needed, rest easy with 24/7 surveillance.

✓ Automated Motion Sensors & Alerts

Artificial Intelligence ensures real-time alerts for all potential threats. Your footage is stored in the cloud for convenient access and review.

✓ Deployable Anywhere

Built in-house, our compact base deploys to the smallest nooks, stays out of your way, and is up and running in 30 minutes.

✓ Construction Project Management

Manage your project on any device, anywhere in the world. Minimize accidents and inside theft. Meet tight timelines and capture it all with time lapse.

✓ Trusted by Local Police

Our relationship with each local Police Department guarantees the fastest response time possible. Most PD's are even clients of ours.

✓ All-Inclusive Pricing

Your monthly investment includes deployment, cloud storage, data overages, maintenance, pickup, and taxes, allowing you to maintain a FIXED budget.

✓ True Security Partner

The only thing better than our tech is our customer service. We perform frequent site audits, tech maintenance, and client check ins.
